Ever wonder what synchronized skating is all about? Synchronized team skating is not only a great social sport, but it is also a great way for your skater to progress in a sport they love while improving their individual skating skills and skating with others. The Bowling Green Skating Club is offering a 5 week Synchronized Skating Clinic where skaters of all levels can learn both basic synchro fundamentals and advanced techniques. Skaters will then get to perform their new skills at two exhibitions – February 13th & February 20th.
